1	It was very organized and kept to a reasonable and purposeful schedule.

1	All content was both relevant and of high priority for participants.
1	Because it assimilated real life teaching to the integration of literacy in an effective manner
1	Great Instructors
1	It gave me strategies that I could seamlessly incorporate into my curriculum.
1	It had great flow.
1	It kept my attention and the teachers put extra effort to make sure math material was covered
1	Jacy and Jenny had very clear agendas and goals set forth from the start.
1	The first day dealt with theory and throughout the week we put it into action
1	comfortable peer interactions
1	great instruction
1	I thought the instructors were incredible and taught lessons about literacy while incorporating the strategies that we could use as teachers in our content areas
1	The instruction was easy to follow. The content is useful. It motivated me to become a better teacher!
1	Many of the activities and protocols we used in this class can be utilized in my classrooms. The flow was very good.
1	I was very satisfied because I learned so many things that I can use in my classroom this fall. A
1	Pace for the breadth and depth were excellent, with 25 years of experience I found material/group of colleagues informative.
1	The professors were very knowledgeable. They were flexible and gave a lot of feedback and strategies.
1	the course was very comfortable and had a lot of open sharing of ideas and gave a plethora of strategies to incorporate

1	I'm taking home (or to school) lots of useful tools
1	Jacy was fantastic in every way...
1	New the material very well.
1	They are well versed.
1	They had so many strategies and information.
1	They moved the course satisfied the needs of the courseware and were engaging
1	They were very knowledgeable and understanding
1	Very knowledgeable, approachable and realistic about their "audience"
1	extremely knowlegable
1	open to a wide range of thoughts, backgrounds, excellent at establishing trust
1	They were knowledgeable, and had a great ability to make concepts clear. They were both very approachable, if I had questions.
1	Jacy was very personable and knowledgeable,yet non-judgemental. he met us each where we were-whether content wise, personal wise-or technology savy or not.
1	Jacy was extremely organized and motivated to tailor the class to our needs. He was energized every day and incorporating what he was teaching us, i.e. he modeled his protocols effectively. Jenny was very effective at synthesizing information
1	They are easy to talk to. They were very intelligent. They were understanding to individual needs.
1	Great pacing. No "dead" time. Excellent ability to sense when a shift was needed. Excellent at bridging gaps in knowledge of particular participants. Great at delivering useful content to a VERY diverse group of educators.
1	Jacy and Jenny were both impressively knowledgeable and very positive in their approaches. They managed to create a lively, friendly and interesting atmosphere for each of the five seven hour days-no small feat!

11. Please explain why you were satisfied with the quality of the materials used for the course.

Count	Response
1	Very.
1	I like that we were provided with hard copies of articles but also access to them (and more materials) online. I would have liked hard copies of the "strategies", for example a hard copy on instructions for block party.

12. Please explain why you were very satisfied with the quality of the materials used for the course.

Count	Response
1	Abundant sources

1	Had great material to share and give to the class.
1	I loved the web sights and the materials and strategies because I can go back and use them
1	I took away from this course more than any other course i've taken!
1	Once again, it gave me strategies that I could incorporate into my curriculum.
1	The online resources are available for future use as well as the papers and resources I'm taking
1	They were sequential, and easy to be able to integrate them into our disciplines
1	Tons of excellent resources!!!
1	a plethora of materials were given
1	bound book was a plus, current research
1	Awesome collection of resources available during and after the course that are online. I will be drawing on it for years to come!
1	tons of materials to use ongoing website to have access to forever numerous links and site to use
1	I wasn't just given articles and information for the duration of the course but I was given tools that I can continue to use after the course is completed. Also, much of the materials can be used directly in my teaching. There was plenty of reading, pedagogy, etc. but also so many great practical ideas that I can't wait to put into action.

1	AIR CONDITIONING!!!! This course was running during the major heat wave that lasted all week.
1	BHS is a new building, very comfortable, and easy to access.
1	BHS is three years old!
1	Beautiful new building. With aircon!
1	Beverly high is neat, clean and the staff was very accomodating
1	Beverly high school is beautiful.
1	Knowledgeable!!!
1	Newly remodeled school
1	Thank you for AC!!!!!!
1	Very.
1	air conditioned
1	air conditioning :)
1	building/furniture was state of the art
1	It was air conditioned! Temps were in the 90's all week. Also, it was comfortable for the size class.
1	It was such an oppressive and hot week Beverly High was air conditioned. The school was well maintained and pleasant

This satisfied my last course for my Master's program through Salem State		1

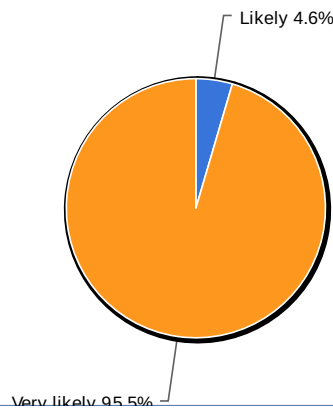

What other professional development experiences would help support your professional knowledge and growth?

Count	Response
1	History-related
1	More workshops regarding CCSS
1	Time to explore ALL of the resources that are out there for teachers.
1	Writing and Reading activities
1	evaluation training
1	more content and content specific activities
1	more courses with actual protocols or strategies to use
1	more of this but deeper
1	special education, and more of literacy instruction
1	More opportunities to be involved in working with peers who have the same high expectations I have and also have the same level of knowledge I have about literacy teaching.
1	I am most interested in PD that results in ideas that I can use in the classroom and less on theoretical or historical courses. Technology PD's would be helpful.

How important were the following in your decision to take the course:

	Not at all important	Somewhat important	Important	Very important	Not Applicable	Responses
PDPs	27.3% 6	4.5% 1	9.1% 2	45.5% 10	13.6% 3	22

Please describe how you expect to use what you have learned in the course.

Count	Response
1	I am rewriting my academic support block
1	I can use the block party concept in the shop setting.
1	I intend to use exactly what I wrote for my final project in September.
1	I will put many of these protocols into place within my classroom
1	I'm planing on fine tuning my vocabulary instruction and offering more chance for discussion
1	It's all relevant and all useful!
1	Reading strategies
1	The protocols we have used and I have find-tuned.
1	These initiatives will be implemented in various ways
1	have chosen several protocols that I will incorporate and put my own twist on
1	immediately in the fall, with an Engineering Design Unit
1	the strategies and protocols I will implementing
1	I am going to try out several of the strategies that we were taught, including: block party, chalk talk, think-pair-share, list-group-label activity, etc.
1	Much of what I learned this week I will apply directly into my unit and lesson plans. I learned many new ways to engage students and learned the theory behind the activities. For part of my final project I am designing an actual unit and lesson plan for this fall incorporating many of the news techniques and ideas learned in this course.
1	I will be using a large number of the strategies we learned. The discussion strategies were particularly insightful, as I hadn't focused on them lately.

Please give us any suggestions you may have to help us make this course better for educators like you.

Count	Response
1	Everything was great, I don't have any suggestions at the time.
1	I can't think of anything I would change.
1	It was a lot in a short amount of time, but I don't see how you get beyond that.
1	It was great, don't change it
1	Make teachers aware that this course exists and how useful it is!
1	This was a wonderful course. I enjoyed it and learned a lot.
1	keep the same staff
1	Not all students are as tech savy as others-Jacy did go rather fast when showing technology stuff. He did lose me most of the time. Luckily, I had a colleague I could hit up to show me again.
1	I only wish that more Beverly teachers would have taken advantage of the offering and the location.
1	Foe a working teacher it is important that the course be relevant and provide hands on practical applications for use in the classroom. Jacy Ippolito and Jenny Jacobs did an excellent job of providing us with just that.
